EDUCATION

Wright State University

Masters of Science in Cybersecurity — Dayton, Ohio *May 2028*

Wright State University

Bachelor of Science in Computer Science — Dayton, Ohio *May 2026*

- Bachelor of Science in Computer Science
 - Cybersecurity Analytics Certificate
 - Dean's List Fall 2025 | President's List Spring 2026
-

TECHNICAL SKILLS

- **Programming Languages:** Python, Bash, Java, C++,
 - **Frameworks & Development:** Flask, Git, GitHub, GitHub CLI, VS Code
 - **Systems & Platforms:** Linux, WSL2, AWS
 - **Technical Areas:** API Integration, Automation, Systems Administration, UI Development, Troubleshooting, Documentation
 - **Development Practices:** Agile/Scrum, Version Control, Collaborative Development
-

EXPERIENCE

Development Team III

Wright State University — College of Engineering and Computer Science - *May 2026 – Present*

- Develop and maintain software solutions used within the College of Engineering and Computer Science.
- Develop an internal command-line tool that automates GitHub repository management for coursework using Bash, Python, GitHub CLI, APIs, and Git.

- Maintain and improve existing departmental software, including the CECS Discord bot.
- Manage departmental devices, system images, and technical infrastructure.
- Provide technical support and troubleshooting for faculty and staff.
- Collaborate with developers and university stakeholders to identify requirements, debug issues, and implement solutions.

Laboratory Leader — Operating Systems Concepts & Usage

Wright State University — College of Engineering and Computer Science - *August 2024 – May 2026*

- Led laboratory sessions covering operating systems concepts, Linux, command-line tools, and systems programming.
- Assisted students individually with programming assignments, debugging, and technical concepts.
- Evaluated assignments and maintained grading documentation.
- Worked with faculty to maintain and improve laboratory materials and course resources.

Graduate Assistant for Residential Student Development

Wright State University - Residence Life & Housing - *August 2023 – Present*

- Supported Residence Life and Housing operations and student programming.
- Assisted with administrative responsibilities, communication, and community initiatives.
- Worked collaboratively with students and university staff to address concerns and support residential communities.

PROJECTS

WSU Classroom — GitHub Classroom Replacement

Bash | Python | GitHub CLI | GitHub API | Git

- Develop an internal command-line tool designed to automate GitHub repository management for university coursework.
- Automate repository creation, student roster processing, assignment naming, configuration, and other repetitive course-management tasks.
- Integrate GitHub CLI and GitHub APIs for repository creation, validation, and management.
- Design the tool around faculty workflows with an emphasis on usability, automation, and maintainability.

Death Star Vulnerability Detection & Secure Transmission System

Python | Flask | Raspberry Pi | OpenCV | RFM69 | Linux

- Led development of a Raspberry Pi-based image detection and secure data transmission system.
- Built an OpenCV image-processing pipeline for detecting target vulnerabilities.
- Developed a Flask web application for viewing and interacting with detection results.
- Implemented two-factor PAT authentication and RF communication using RFM69 hardware.
- Deployed the application as a Linux `systemd` service for automatic startup and reliable operation.

KAMA DegreeAdmin

Python | HTML | CSS | JavaScript | MariaDB

- Served as frontend lead and project coordinator for a web-based university degree-planning platform.
 - Developed interfaces for class selection, schedule generation, degree planning, and co-op planning.
 - Implemented functionality for PDF export and permission-based user access.
 - Supported administrative functionality for adding, removing, and managing courses.
 - Coordinated frontend development and integration with backend functionality.
-

LEADERSHIP

Alpha Omicron Pi

President *January 2026 – May 2026*

- Led chapter operations and coordinated executive leadership responsibilities.
- Communicated with members, university organizations, and chapter leadership to support organizational goals.

Wright State University College Panhellenic Council

Vice President of Membership Recruitment *January 2025 – December 2025*

- Coordinated recruitment initiatives across participating organizations.

- Collaborated with chapter representatives and university staff to organize recruitment activities and communications.
